**** = also fulfills Financial Literacy graduation requirement**

Current Freshmen - Class of 2027
School Year 2024-2025
Course Selection Information

Selection Time Period: January 4, 2024 to January 19, 2024

Dear Student,

How time flies! I would like to begin scheduling freshmen for sophomore year. Please complete the attached scheduling form with your parents and return the form to me and log into PowerSchool between January 4, 2024 and January 19, 2024.

Helpful guidelines -

Consult your teacher and parents for advice. Look at your current level to determine next year's academic level. If you are at 83 or higher, you may consider going to the next level. If you are interested in taking high school courses that can earn you college credits please click on the [College Now at Eastern handbook](#) or go to <https://www.eccrsd.us/Page/1218> to access the handbook.

1. Everyone needs an English class; select the appropriate level.
2. Everyone needs Drivers Education and PE 2.
3. Most students will take US I to work toward their high school requirement of three history units (World, USI and US II).
4. Science – read the requirements for Chemistry and consult with your science and math teachers for planning and levels.
5. Math teachers have already discussed your options for next year. Again, use your numerical average plus the teacher's suggestion for your math program.
6. World Language – one year is required for high school. Colleges may require 2, 3, or 4 years of the same language. Check the college's website if you are thinking about specific schools.
7. Elective – think about choices that you would be interested in exploring, talk to friends and read your course guide. Colleges like to see academic electives so do not load up on non-academic electives. When choosing an elective, remember you must successfully complete graduation requirements in the following areas:
 - Visual/Performing Arts (5 credits)
 - 21st Century Life and Career or Career Technical (5 credits)
 - Financial Economic Literacy (2.5 credits)
8. Provide 15 credits or more of alternate choices. I will insist, at scheduling, that you have this thought out ahead of time.
9. You must carry 30 credits as a minimum each school year during your high school career.
10. If you do not meet district prerequisites for a particular course, a completed course waiver form will be required. The waiver period is from January 4, 2024 to April 30, 2024. You may obtain a waiver form from me.
11. You will receive a pass from me to review course selections when you have completed the following:
 - Completed the course selection process in PowerSchool.
 - Returned the course selection worksheet with parents' signature to me.
12. Upon completion of receipt of your course selection worksheet, I will review with you your requests to ensure that you have selected the appropriate courses for your sophomore year.

I look forward to meeting with you and discussing your future plans!
