Re: High School Course Selection

Dear Parents and Guardians of Eighth Grade Students:

In January, high school counselors will visit Berlin Community School to present about Eastern Regional High School's general academic requirements, review the course selection process, and distribute the *Class of 2028 Program Planner and Worksheet*.

Eastern Regional counselors will then meet with your child during an appointment scheduled Wednesday, February 14<sup>th</sup> or Thursday, February 15<sup>th</sup> to select courses for ninth grade. Appointments will be arranged by your middle school counselor. Please bring your completed copy of the *Class of 2028 Program Planner and Worksheet* to your scheduling appointment.

Eastern Regional High School is a separate school district from the middle schools. Therefore, all students rising to high school must adhere to the State of NJDOE enrollment policies and submit registration information accordingly. Enclosed you will find your student's *Class of 2028 Student Information Form*. This form has been populated with information provided by the middle school and is specific to your child. Please review the sheet for accuracy and edit or provide missing information as needed. After your review, sign and return the form to the ERHS Guidance Office. For more information about enrollment requirements, or for submission options, please scan the QR Code below.

If you are considering sending your student to a school other than Eastern Regional High School, we ask that you please continue to complete the course selection process with the high school counselor at the assigned appointment.

With your cooperation and collaboration, we hope to make the transition to high school as smooth as possible. We look forward to meeting with you and your child in the near future. If you have any questions or concerns regarding the course selection process or appointment time, we ask that you contact your child's eighth grade counselor.

Sincerely,

Jason Susko  
Supervisor of Guidance
