SUPPORT GROUPS

High school is an important time in every child's life. It is a time where academic achievements can play a key role in determining options for the future. However, social and emotional well-being are equally important. Eastern Regional believes that supporting mental health is vital towards developing academic success. Every student is assigned a counselor to assist with their academic and social-emotional well-being. Counselors consult with administrators, teachers, parents, and even classmates in an effort to develop an encompassing perspective of the members of their caseload. In addition to every student's assigned counselor, group counseling for additional support is also available. Group topics include grief support, changing families, anxiety, and female empowerment just to name a few. Eastern is also proud to have available a licensed, outside clinical counselor. Eastern Regional is committed to working with families on the development of every student's academic and social-emotional journey in becoming young adults. Contact your counselor to access these resources.

All programs and courses are open to all students; no student shall be denied access to any course offering on the basis of race, sex, national origin, color, creed, religion, ancestry, economic status, or handicap.
